

The **Landschaftsverband Rheinland (LVR)** is currently looking, on behalf of the **LVR-Klinikum Düsseldorf, Kliniken der Heinrich-Heine-Universität Düsseldorf**, as early as possible, for

## Assistant Doctors

for work in **all departments** in the fields of **Psychiatry** and **Psychotherapy**.

**The positions should be occupied on a fixed-term basis, as part of further training.**

The Landschaftsverband Rheinland (LVR) works as a community association with approximately 18,000 representatives for the 9.6 million people in Rhineland. It carries out work recognised all over Rhineland with its 41 schools, 10 clinics, 19 museums and cultural institutions, 3 networks, 4 youth welfare centres and the State Department of Children's and Young People's Affairs. The LVR is Germany's largest provider of services for people with disabilities, and works towards inclusion in all areas of life. 'Quality for people' is its central theme. The 13 independent towns and the twelve districts in Rhineland are the membership bodies of the LVR, as well as the city region of Aachen. Politicians from the Rhineland communities help to mould the work of the association in the Rhineland Regional Assembly.

With a total of over 5900 inpatient and day clinic treatment and care facilities, the LVR-Klinikverbund is one of the largest providers of treatment services for people with mental illnesses in Germany. Around 60,000 patients are treated per year in our community-based and needs-based association of clinics.

The **LVR-Klinikum Düsseldorf** (Clinical Director: Professor E. Meisenzahl-Lechner) runs departments for General Psychiatry, Psychotherapy and Psychosomatic Medicine, Child and Adolescent Psychiatry/Psychotherapy/Psychosomatics, Neurology and Social Rehabilitation with a total of 707 beds/spaces, and employs over 1000 staff. There is a duty of care for 530,000 citizens of the state capital, Düsseldorf.

## Your responsibilities

- Psychiatric and psychotherapeutic clinical activity, treating inpatients and part-time inpatients, and simultaneous active researching and teaching work at the outpatient institutes

## Your profile

- Excellent clinical engagement
- Interest in scientific projects and clinical trials
- Active participation in teaching students
- Candidates with a promotion and/or who wish to be promoted are very desirable
- Excellent German skills, written and spoken (C1 level)
- Cross-cultural skills

Proof of suitability and skills should be provided by means of original versions of current official assessments/certificates.

## We offer you

- You will be placed in the Doctors' Labour Contract I/VKA salary group.
- Company pension scheme for old age security in tariff area
- Complete further training in the fields of Psychiatry and Psychotherapy
- Psychotherapy training as part of further specialist training, with a focus on behavioural therapy (including self-awareness)

- Excellent research opportunities in various areas of research (imaging, psychophysiology, neurobiochemistry, healthcare research)
- Post-doctoral qualification opportunity
- Düsseldorf is responsible for the National Schizophrenia Research Association Skills Network. It is also involved in the dementia and depression skills networks.
- Varied, responsible activity in an engaged team
- External team supervision on all wards
- Opportunity for further neurological training
- Opportunity for part-time work, including producing reports
- A cost-effective job ticket from the VRR (Rhine-Ruhr Traffic Association) with opportunities for interim rates in the VRS
- As a member of the 'Success Factor Family' network of companies, the balance of work and family life is of great importance to us. We endeavour to have family-friendly working hours. Moreover, the desire for part-time work should not be an obstacle.
- Childcare can be offered in the resident daycare centres on the premises, depending on availability.

**Any further questions?**

Please contact Professor Janssen, Leading Senior Physician, telephone: +49-(0)211 922 -3404. She will be happy to help you.

**You can find general information about the Landschaftsverband Rheinland online at [www.lvr.de](http://www.lvr.de), and about the LVR-Klinik at [www.klinikum-duesseldorf.lvr.de](http://www.klinikum-duesseldorf.lvr.de).**

Candidates with severe disabilities will be given priority, other things being equal. We look forward to applications from people from a migrant background.

For environmental reasons, we ask that you refrain from using transparent envelopes and application portfolios. Application documents will not be returned.

Please send your application, **quoting reference 853/01\_D**, preferably by email (max. 4 MB) to
